Team: Team 1

Tuesday Tutorial at 2:30pm with Sachin

Sprint Number: 3

Meeting date:

25/09/2020

Product owner:

Sachin Pathiyan Cherumanal

Scrum Master:

s3787596 Prerak Soni

Development team:

s3787596 Prerak Soni

s3810119 Erik Oliversjoe

s3716816 Ryan Wilson

Meeting notes:

- Explaining the things to get done for the front end. Whether we should integrate some functions that aren't necessarily in the functional requirements.

- Refactoring the backend to combine customer and employee tables.

- Changing up the booking requests.

- The backend has most of the base functions done. Just need to fix and tweak things.

- Discussion about stretch goals, rating system.

Sprint Goal

- Sprint 3 (Milestone 3)

Duration of Sprint

- 2 Weeks

What is the team's vision for this sprint?

- Implement and intergrate all of front end

- Refactor backend and customer table

- Optimise what APIs return

- Update frontend with those changes

- Session update on the backend

- Centralised Dashboard for frontend

- AWS Deployment

- Unit tests

- Updating user stories and docs

- Burndown chart

Stretch goals

- Adding a review/rating system. (Radio buttons)

Estimation in story points
